PROFILE

Results-driven Web Developer with hands-on experience building scalable, high-performance web applications using Next.js, TypeScript, and WordPress. Adept at problem-solving, teamwork, and delivering high-quality digital solutions. Currently pursuing a Cybersecurity Engineering degree and aspiring to grow into a senior technical leadership role.

WORK EXPERIENCE

Self Employed — 2025 - PRESENT
Freelance Web Developer

- Developed responsive, performant, and secure solutions using Next.js and Supabase tailored to client needs.

Almindhar — 2024 - 2025
Web Developer & Tech Lead

- Led the technical development of a real estate platform, customizing WordPress with HTML, CSS, JavaScript, PHP, and MySQL to enhance features, performance, and security.
- Collaborated with a cross-functional team to build a responsive, scalable booking platform using Next.js, Tailwind CSS, TypeScript, and Supabase.

Almindhar — 2024
Temporary Project Manager

- Oversaw company-wide operations, leading teams across development, sales, and marketing.
- Enhanced leadership, communication, and strategic planning skills while ensuring on-time delivery and business alignment.

Almindhar — 2024
Internship

- Developed an LLM-powered chatbot using Python and NLP, connected to real estate datasets and blogs, featuring a responsive chat interface.

ACTIVITIES

Participated in events by the 'Ministère de la Jeunesse et des Sports', as well as hackathons and CTF competitions in college
